Thank you to our sponsors who help make this Punch List possible.

Members & Friends,

by **Kristin Purdy, AIA, CSI President**

It was great seeing many of our members and some new faces at Oak Hill for our October meeting. Thanks to **Mary-Beth Rumble** from Poole Professional for her enlightening and engaging presentation on **“Seven Deadly Sins”** of email. I believe many of us walked away with reminders on how to craft a clear and concise email, and that emails live forever. I look forward to seeing Mary-Beth again this month at our **CSI Night** education session.

I also look forward to seeing so many of our members and industry colleagues at the **Doubletree by Hilton** in Henrietta on **November 13**. Our CSI Night event always brings great education and exciting conversations to our industry. This event is one of the many reasons why our Chapter is strong and successful in the Region.

If you are a CSI Rochester member, be sure to stop by our **CSI Membership booth** at the event to learn how you can get more involved with our Chapter. If you're not a CSI Rochester member, stop by the booth to learn more about what CSI has to offer and how to join our organization. Several CSI Rochester Board members will be there throughout the evening and we'd love to talk to all of you!

Get to Know Your Board

Allison Shannon

As Program Chair, I coordinate interesting program topics and speakers for the Rochester chapter throughout the year. I enjoy meeting new members and learning about new products and projects that impact our industry.

Favorite place in Rochester? Strong National Museum of Play. I can't wait to take my son there! I love all things outdoors! Bike rides, camping, boating, hiking and spending time with my family.

Dan Cannan

As Treasurer, I am responsible for keeping an accurate accounting of our income and expenses. Also advise the board on what we can plan on for the future, economically speaking.

The gain in knowledge from the monthly chapter presentations as well as the knowledge from the other members and their perspectives of the construction industry. I have also gained many great friendships.

Favorite place in Rochester? My home, not my house, my home. I enjoy golf, fine dining and fine wines, the study of architecture and all facets of construction.
